**OnlineReporting Inc. selects ReportDox to provide Fire/Police Report Retrieval from within it's Claims Management System**

**May 15, 2009 –Bohemia, NY** – Online Reporting Inc., maker of FileTrac Claims Management System has chosen ReportDox, a web based service offered through Certified Report Services Inc., a national police/fire/dmv report retrieval service to provide nationwide report services to their independent adjuster and insurance company subscribers.

Dean Varillas, Vice President of Sales at Online Reporting Inc., says that, "This partnership will dramatically increase the efficiency with which adjusters receive the reports (police, fire, accident, and shortly motor vehicle and medical records) they need to settle claims in a timely manner. The entire process is automated therefore saving time and money."

Ed Shapero, CEO of Certified Report Services Inc. says that, "Online Reporting Inc. is providing a powerful tool to the independent adjuster community allowing them to manage their business remotely and efficiently, freeing up their time for revenue generating activities. We are very pleased that Online Reporting Inc. has chosen ReportDox to expand their suite of services for their users."

For further information about Online Reporting Inc. or to schedule an interview please visit our website at [www.OnlineReportingInc.com](http://www.OnlineReportingInc.com) or contact Dean Varillas at (888) 717-1730.

###

**About Online Reporting Inc.**

ORI's, FileTrac Claims Management System recently received the highest rating by a national association of independent insurance adjusters. FileTrac is an affordable, robust yet easy to use system that is used to manage claims for multiple lines of business including property, casualty, auto, TPA and Workers Comp. FileTrac can be customized to suit the specific requirements of any adjusting workflow, and integrates with all major software applications commonly used in the adjusting industry. ORI prides themselves on working closely with their customers to increase the efficiency, automation, accountability and profitability of their business. .
